(Login with SWITCH edu-ID) ([What's a SWITCH edu-ID?](#))

#### Hardware - Students - Technology

Note on hardware requirements of a laptop for the study of technology.

<https://help.fhnw.ch/public/2017/hardware-studierende-technik>

#### Course-specific software

Programme-specific software is installed during the introductory week

### FHNW School of Engineering

#### Continuing Education

[Weiterbildungsadministration Technik](#)

#### Start into further education

Allow enough time to set up your login to the Azure Cloud before starting the training.

You need a laptop and a mobile phone for this.

**Setting up MFA (Multi-Factor Authentication )** [Schritt für Schritt Anleitung mit Bildern für MFA](#)

Video: [Set up multi-factor authentication \(MFA\)](#)

**Change password** under the address <https://myaccount.microsoft.com/> Box: "Change password".

**Register webmail** at <https://outlook.office.com/>

**For more information on your access to teams, please contact the Continuing Education Administration.**

#### Video from the Corporate IT

In this video, Corporate IT gives you an introduction to everything related to IT.

### Setup FHNW access

This page explains how to access the FHNW systems after receiving your account sheet.

Instructions and help with setting up your private device (laptop, desktop computer) or one belonging to the FHNW is available here.

#### Setting up a private device

Setting up a FHNW device

### Setup FHNW access

This page explains how to access the FHNW systems after receiving your account sheet.

Instructions and help with setting up your private device (laptop, desktop computer) or one belonging to the FHNW is available here.

The following section is of relevance to students and employees using their private device at the FHNW:

Private products and services should not be registered using a personal FHNW email address, as it will not be available to you after you leave.

**Connectivity and network setup** on mobile FHNW (the FHNW's internal) takes you through the steps you need to take:

1. Set up **WiFi/ethernet** authentication
2. Change your **password**
3. Log in to **VPN** with your account to access your email
4. Install **VPN** for access to FHNW resources from outside the FHNW
5. Connect to the **data storage**
6. Install a **proxy** if you have one

If your account listed in the following **specific information** for the start of studies, follow the instructions to connect your device. Please work through these steps before you start your studies or employment. You should also refer to the information provided in your account sheet in the **color** before specific information items.

- FHNW School of Engineering, Windisch**
- **Basel Academy of Music FHNW**
