Setup FHNW access

This page explains how to access the FHNW systems after receiving your account sheet.

Instructions and help with setting up your private device (laptop, desktop computer) or one belonging to the FHNW is available here.

Setting up a private device

The following section is relevant to students and employees using their private device at the FHNW.

Please provide your device with a personal FHNW email address, as it will not be available to you after you leave.

Steps to follow:

1. Set up FHNW Single Sign-On authentication
2. Change your password
3. Log in to FHNW with your account (to access your email)
4. Install the FHNW client to FHNW resources from outside the FHNW
5. Connect to the FHNW network
6. Install a gateway if you have one

If your school is listed in the following Specific Information for the start of studies, follow the instructions to connect your device. Please work through these steps before you start your studies or employment. The school also refers to the information provided in your school sheet in the section below specific information.

FHNW School of Engineering, Windisch

• Basel Academy of Music FHNW

- **FHNW School of Engineering, Windisch**

Start of semester, prepare device for the FHNW network

1 Welcome to the FHNW

We will provide you with the following information:

To make it easier for you to get started with the FHNW IT environment, we have prepared a brief summary of all relevant topics. This is the start of your journey in the FHNW network. Supplement this with the details with detailed instructions.

The IT Service Desk Team wishes you success in connecting your device.

2 Prepare device for the FHNW network

Here you will find the individual steps described on how to prepare the Windows or Mac OS environment before starting your studies. If you cannot copy and paste these steps or your device cannot connect to the FHNW network, please contact the IT Service Desk for the start of your studies. For the first semester, with the first semester, you will find an overview of the steps described. If you should have a question about the steps described, please contact the IT Service Desk for the start of your studies. Please note that all software provided for students is based on the Windows operating system.

Please set up your device before starting the study.

We distinguish between two applications. Two independent companies and services.
